ABOUT THE COLLEGE

Chebrolu Engineering College (CHBR), Guntur was established in 2008, by devoted group of eminent professionals and industrialists, having a long and outstanding experience in educational system with a mission 'Education for Survival. It is the First institute to start with Civil Engineering, Electronics & Communication Engineering, Computer Science and Engineering, Electrical & Electronics Engineering, and Information Technology with an intake of 60 each. The institution introduced M.Tech courses from 2012 in all Branches. The institute is expanded to 654 intakes in existing disciplines and introduced Mechanical and Civil Engineering spread in an area of one lakh fifty thousand square feet, accommodating well ventilated classrooms, state-of-the art labs, well maintained outdoor & indoor sports and games facilities.

WORKSHOP OBJECTIVE

The rights of authors of literary and artistic works (such as books and other writings, musical compositions, paintings, sculpture, computer programs and films) are protected by copyright, for a minimum period of 50 years after the death of the author.

Also protected through copyright and related (sometimes referred to as "neighbouring") rights are the rights of performers (e.g. actors, singers and musicians), producers of phonograms (sound recordings) and broadcasting organizations. The main social purpose of protection of copyright and related rights is to encourage and reward creative work.

IPR is a strong tool, to protect the investment, time, money, and effort invested by the inventor/creator of the IP, as it gives the inventor/creator an exclusive right for a certain period of time for the use of its invention/creation. Thus, IPR affects the economic development of a country by promoting healthy competition and encouraging industrial growth and economic growth. The present review presents a brief description of IPR with particular emphasis on pharmaceuticals.

WORKSHOP OBJECTIVE

The participants of the workshop will be able to understand Trademarks can serve multiple purposes and they can vary according to the company and what their overall intention is. There are two main purposes that a trademark serves. One is distinguishing and identifying services or goods that a seller or manufacturer sells or is sold by other companies or sellers. The second is to give the public the information about where the logo, name, or brand came from. It ultimately is a way to brand a product, name, or slogan.

ABOUT THE COLLEGE

Chebrolu Engineering College (CHBR), Guntur was established in 2008, by devoted group of eminent professionals and industrialists, having a long and outstanding experience in educational system with a mission 'Education for Survival. It is the First institute to start with Electronics & Communication Engineering, Computer Science and Engineering, Electrical & Electronics Engineering, and Information Technology with an intake of 60 each. The institution introduced M.Tech courses from 2012 in all Branches. The institute is expanded to 654 intake in existing disciplines and introduced Mechanical and Civil Engineering spread in an area of one lakh fifty thousand square feet, accommodating well ventilated classrooms, state-of-the art labs, well maintained outdoor & indoor sports and games facilities.

WORKSHOP OBJECTIVE

The main objective of this workshop is:

- Research methodologies tell the systematic method for acquiring data and studying it for deriving out crucial findings.
- Basic research, also called pure research or fundamental research, is a type of scientific research with the aim of improving scientific theories for better understanding and prediction of natural or other phenomena
- the overarching strategy and rationale of your research. Developing your methodology involves studying the research methods used in your field and the theories.
